

HEALTHCARE

IMPROVING QUALITY OF LIFE
– BECAUSE WE CARE

Because We Care

We believe personalized healthcare is about understanding individual needs and finding the right solutions. It is about choosing the right combination of products and knowing how to use these.

Based on our decades of experience as a total provider of healthcare solutions, we want to help make a difference for healthcare professionals, residents, and patients across the world.

To do so, we are committed to:

- ☒ Delivering quality products
- ☒ Communicating knowledge by experts
- ☒ Supporting sustainability actions as part of our DNA
- ☒ Pursuing innovative solutions

ABENA — Global Healthcare Partner since 1960

Sourcing the World for You

For more than 40 years, we have built trusted partnerships with reliable suppliers across the globe. We choose suppliers who share our values and ambitions for improving environmental and social performance.

Our sourcing setup

- ☒ We source directly from the manufacturer based on customer demands
- ☒ We utilize local know-how to find the right quality at the best price
- ☒ We perform local quality control with full traceability and documentation
- ☒ We test and control our sourced products

We count on our suppliers — and you can do the same.

Our Modern Own Production

ABENA manufactures healthcare products on more than 30 production lines. To secure healthy and safe manufacturing and use of our products, our production facilities are certified according to multiple internationally recognized certification schemes. All our manufacturing processes are automated and robot-controlled to supply every need within healthcare.

As a manufacturer we provide:

- ✓ Modern, quality conscious production of absorbent products since 1980
- ✓ A production with sustainability in mind
- ✓ In-depth product knowledge on our, from raw materials to use and disposal
- ✓ Products holding several ecolabels

**We strive to produce the best healthcare products possible
— to support your needs.**

Our factories comply with
ISO 9001:2015 and
ISO 14001:2015 (DK, SE, FR)

the Nordic Swan Ecolabel

Sustainability is in Our DNA

We are founded on a commitment to care. Care for people and care for our future. We believe that healthcare can become more sustainable without compromising user needs. We make decisions regarding our products based on facts and professional assessments of the needs of our customers.

That is why we:

- ☒ Guide you on choosing the right product for your needs to avoid wasting resources
- ☒ Take our social responsibility seriously and live up to international CSR standards
- ☒ Are able to calculate the environmental impact on many of our healthcare products

We aim for a better tomorrow — together with you.

Learn more:
www.abena.com

We focus on reducing our CO₂ emission levels throughout our entire supply chain

Calculating Your Impact

Our life cycle assessments (LCAs) make it easy to select the products that make a measurable difference for the environment.

With LCAs, we calculate all environmental resources extracted from the environment (e.g., raw materials) to all the emissions that go into the environment (e.g., CO₂) throughout a product's life cycle.

With LCAs, you can:

- ☒ Choose the products that support your sustainability goals
- ☒ Select products based on raw materials, functionalities, and environmental footprint
- ☒ Compare products' environmental footprint

**We help you achieve your sustainable goals
— let's create a brighter future together.**

89.5% of all waste from our own production companies was recycled in 2022/2023

Welcome to the Care of Tomorrow

Everybody has the right to receive the best possible care. That's why we aim to provide innovative solutions that solve the healthcare challenges of tomorrow and facilitate the most dignified care possible.

We do this by constantly focusing on product development for our digital and conventional solutions. Whether you drip a little from time to time or need more extensive help, we're here with the latest continence care technology.

Innovative solutions help you:

- ☒ Ensure dignity for all patients and residents
- ☒ Free up time and resources for personalized care
- ☒ Pave the way for more human interaction

**We strive to create healthcare products of the future
— to support more human care and dignity.**

Digitalized Incontinence Care

With ABENA Nova's incontinence products with integrated sensor technology that carefully monitors saturation, you can bring reliability and convenience back to continence care.

By alerting staff when it's time to change, ABENA Nova reduces changes and manual checks leaving more time for providing the highest level of care.

ABENA Nova ensures:

- ☒ Comfortable continence care for staff and residents
- ☒ Incontinence products are changed on time
- ☒ Fewer leakages and manual checks

**The future of digital continence care is here
— what is holding you back?**

Incontinence

Personalized continence care delivered by experts

Incontinence care must never be a 'one size fits all.' No two people are the same. People's anatomy, skin, and degree of incontinence vary greatly, and differences in age, personality, lifestyle, and other circumstances require a personalized approach.

That's why our team of experienced continence nurses and product specialists are always ready to help. Whether you need product advice or training in continence management, we're here as your trusted healthcare partner.

Why you should choose incontinence products from ABENA:

- All products are designed with comfort and security for the user in mind
- Superior leakage protection improves comfort and reduces workload
- Breathable materials allow moisture to evaporate for optimum skin health
- All products are dermatologically tested and suitable for sensitive skin
- We're the world's first manufacturer of Nordic Swan eco-labeled incontinence products

Digitalized incontinence care

The Right Continence Care Means Everything

From selecting the right products to caring for the perineal skin, continence care is a complex and time-consuming responsibility. Leakages, wet bed sheets, and skin irritations can challenge caregivers and residents and take up more time and energy than needed.

That's why we are here to help guide you every step of the way, ensuring optimal care and dignity. From product selection to proper application techniques, our solutions and services ensure that you can

focus on what truly matters — providing personalized care.

A larger product isn't always better. Therefore, our philosophy is always to find the product as small as possible and as large as necessary.

When choosing ABENA, you can rest assured knowing that you receive high-quality products that meet all relevant quality standards and that many hold ecolabels.

Drop System

ABENA's drop system serves as a guide to help choose the right product for individual needs.

1 drop	1–3 drops: Light incontinence
2 drops	4–5 drops: Moderate incontinence
3 drops	6–8 drops: Heavy incontinence
4 drops	9 drops: Very heavy incontinence

ISO 11948-1 (Rothwell)

Rothwell measures the theoretical absorption capacity of the absorbing product and is mostly used for comparing the performance of products from different suppliers. If practical absorption capacity is needed, indication is between $\frac{1}{2}$ and $\frac{1}{3}$ of the ISO Rothwell value depending on the size of the product. In addition, factors such as composition of the core, size of the product, incontinence type, pressure on the product, and posture of the user can affect the amount of urine a product can hold in practice.

Learn more:
www.abena.com

Your assurance for quality and safety

For more than 20 years, ABENA has been working actively and passionately with sustainability, and our work is well-documented. Today, more than 80% of our incontinence products and baby diapers have an ecolabel.

ts
m

Supporting Well-being

We know how much it means to give and get the best care possible. That's why our incontinence products are developed with features that have both the user's as well as the caregivers' well-being in mind.

The product prevents leakages in the front, back, and sides through a combination of different types of barriers (lying/standing/cross barriers) and elastics.

The product features ABENA's unique Top-Dry Technology, which provides rapid absorption and a dry surface even after multiple voids and contributes to maintaining a healthy skin balance.

The product is fully breathable, making it comfortable to wear for a longer period of time as it allows moisture and heat to evaporate from the user's skin.

The product is fitted with a wetness indicator that changes color to show when it is fully utilized and needs to be changed. A graduation scale helps to estimate how much of the product's total capacity has been utilized. This guides the caregiver and the user to find the product with the right absorption, complying with ABENA's overall philosophy: "As small as possible, as large as necessary."

Skin Balanced

The product contains a combination of fully breathable materials, Top-Dry Technology, and leakage protection barriers providing a dry surface and healthy skin even after multiple voids. This helps maintain the skin's natural pH balance.

The product has flexible tapes ensuring the best combination of comfort, fit, and leakage protection. The blue double tape guarantees an extra repositioning possibility.

The product is designed to encapsulate odor and minimize any unpleasant smells. Odor control is a critical factor in ensuring discreteness for the user.

The product's unique core construction consists of a high-quality Acquisition and Distribution Layer (ADL/sublayer), long fluff fiber structures, and positioned Super Absorbent Polymers (SAP), which ensures the following advantages:

- Fast dispersion and encapsulation of urine
- High retention and ISO Rothwell absorption values
- Dry surface even after multiple voids

Shaped Pads

Maximum comfort, protection, and discretion

ABENA Light Premium and ABENA San Premium are a range of thin, anatomically shaped pads suitable for people living with light to moderate incontinence. All pads have peel-off tape on the back to ensure the product stays in place. Combined with our odor control system and leakage barriers, ABENA Light and ABENA San allow users to feel protected all day and night.

- High-performance core and Top-Dry Technology ensure a dry feeling
- Invisible leakage barriers for extra protection
- Anatomically shaped for a comfortable fit
- Fully breathable materials support a healthy skin balance
- Odor Control system for maximum discretion

Item number	Size	Dimensions	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000022654	Maternity Pad	42 x 20 cm	825 ml	Premium	15 / 18

The ABENA Maternity Pad is our Premium range of anatomically shaped pads for periodic, light to moderate incontinence following childbirth. The product features the Top-Dry Technology for optimum comfort and skin integrity. The breathable and anatomically shaped pads help keep the skin healthy and offer an excellent fit. All products are fitted with leakage barriers for extra protection, and the Odor control system minimizes unpleasant smells. The dermatologically tested product features the Nordic Swan Ecolabel and is made from FSC™ certified materials.

ABENA San

Optimum leakage protection

ABENA San Premium in sizes 5–11 is a range of anatomically shaped pads that are used together with special fixation pants. This two-piece system ensures that the pad stays in place while reducing the risk of leakages. Further, ABENA's life cycle assessment has shown that the two-piece system uses fewer raw materials and has less environmental impact as the fixation pants are re-useable.

- High-performance core with Top-Dry Technology ensures a dry feeling
- 360° leakage barriers reduce workload and improve user comfort
- Wetness indicator with graduation scale to help guide product changes
- Fully breathable materials support a healthy skin balance
- Two-piece system minimizes the usage of raw materials

1000021313	11	73 × 37 cm	3400 ml	Premium	21 / 4

ABENA San 5-11 is our Premium range of anatomically shaped pads for moderate to heavy incontinence. The high performance core with Top-Dry Technology ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with standing leakage barriers combined with front and rear built-in cross barriers offering 360° leakage protection. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to the product with the right absorption level and product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel. ABENA San in sizes 5-11 should always be used with special fixation underwear, like our fixation pants, to ensure a tight fit and reduce the risk of leakage. ABENA's two-piece systems, consisting of a pair of fixation pants and an incontinence pad, are a cost-effective solution, as they use less raw materials, thereby having less impact on natural resources and the environment.

Shaped pad, ABENA San

Item number	Size	Dimensions	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021315	7/XXL	84 × 46 cm	2000 ml	Premium	26 / 4
1000021316	11/XXL	84 × 46 cm	3400 ml	Premium	16 / 4

ABENA San 7/XXL and 11/XXL are ABENA's range of anatomically shaped pads designed for bariatric use. The longer pad provides greater security for all body shapes. The high performance core with Top-Dry Technology ensures optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with standing leakage barriers combined with built-in cross barriers at the rear. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to determine the right absorption level and product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel. These bladder protection pads should always be used with special fixation underwear, like our ABENA Fix Pants Super 4-6XL products, both to ensure a tight fit and to reduce the risk of leakage. ABENA's two-piece systems, consisting of a pair of fixation pants and an incontinence pad, are a cost-effective solution, as they use less raw materials, thereby having less impact on natural resources and the environment.

Shaped pad, ABENA San

Item number	Size	Dimensions	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021314	Special	73 × 37 cm	2000 ml	Premium	30 / 4

ABENA San Special is our anatomically shaped pad specifically designed for fecal incontinence. The pad can be used for both fecal and urinary incontinence and features a light green textile-like breathable backsheet foil for optimum comfort and discretion. The pad has effective leakage barriers with built-in pockets that keep the fecal contents inside. The high performance core with Top-Dry Technology ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with standing leakage barriers combined with front and rear built-in cross barriers offering a 360° leakage protection. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The wetness indicator guides the user and caretaker to the product with the adequate absorption level and product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel. ABENA San Special should always be used with special fixation underwear, like our ABENA fixation pants, to ensure a tight fit and reduce the risk of leakage.

ABENA Pants

A soft and secure fit for active users

ABENA Pants can be worn like regular underwear and are a good solution for users who live an active lifestyle. The range covers a wide range of needs and is particularly suitable for people who manage product changes and toilet visits independently. ABENA Pants are also ideal for people with dementia, who tend to resist changes of their incontinence product.

- Super soft and fully breathable materials for optimal user-comfort
- High-performance core and Top-Dry Technology ensure a dry feeling
- Elasticated high waist with lycra threads for a secure fit
- 360° leakage barriers reduce workload and improve user comfort
- Odor Control system for maximum discretion

ABENA Slip is our Premium range of fully breathable, anatomically shaped bladder protection briefs for moderate to heavy incontinence. The high performance core with Top-Dry Technology ensures fast absorption and a dry surface even after multiple voids. A combination of different barriers (visible and invisible) and elastics (curved leg elastic) offer 360 degree leakage protection all around the product. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The high quality flexible combi tapes with double tape function ensure an optimum fit and easy repositioning. The wetness indicator with graduation scale guides the user and caretaker to the product with the right absorption level and aids product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel.

ABENA Slip Bariatric is our bladder protection briefs for moderate to heavy incontinence and designed for people with hip-size up to 254 cm. The flexible side panels with velcro tapes ensure an easy and optimum fit. The products feature the Top-Dry Technology for optimum comfort and skin care. The briefs offer a 360 degree breathability at the waist area to ensure complete skin respiration. The Odor control system minimizes unpleasant smells. The wetness indicator guides the user and caretaker to the product with the adequate absorption level and aids product changes.

ABENA Slip Flexi Fit

Stretchy and snug fit that allows free movement

ABENA Slip Flexi Fit offers premium protection as the product follows the body's movement. Extra elastics in the waist, tapes, and lower back give a tight, snug fit that supports all body shapes. This premium product is comfortable to wear both day and night.

- A snug fit that allows free movement and is perfect for any body type
- Stretchy sides allow for an easy application
- Fully breathable materials support a healthy skin balance
- High-performance core and Top-Dry Technology ensure a dry feeling
- 360° leakage barriers reduce workload and improve user comfort

ABENA Slip Flexi Fit is our Premium range of fully breathable bladder protection briefs in a stretchy version for moderate to heavy incontinence. Flexible sides in the waist and fluted elastics at the lower back gives a snug and comfortable fit that supports all body shapes and provides high protection even during movement.

The high performance core with Top-Dry Technology ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids.

A combination of different barriers (visible and invisible) and elastics (curved leg elastic) offers a 360 degree leakage protection all around the product. When combined, these functionalities help protect the skin and maintain a natural pH skin balance.

High quality combi tapes ensure an optimum fit and easy repositioning. The Odor control system minimizes unpleasant smells.

The wetness indicator with graduation scale guides the user and caretaker to the product with the adequate absorption level and aids product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel.

ABENA Wing

High-quality belted incontinence products

ABENA Wing Premium is a range of belted incontinence products for moderate to heavy incontinence. The soft, nonwoven belted fastening provides unique fitting properties, and the extra belt length ensures that you do not need a separate extension belt. ABENA Wing is appropriate for users who are self-reliant when putting on the product and those who need assistance.

- Top-Dry Technology ensures a dry feeling
- Hook-and-loop fastening on the belt and tape on the front makes repositioning easy
- Fully breathable materials support a healthy skin balance
- Wetness indicator with graduation scale to help guide product changes

ABENA Wing is our Premium range of belted products for moderate to heavy incontinence featuring the Nordic Swan Ecolabel. All incontinence products are fully breathable and are fitted with leakage barriers for extra protection. The dermatologically tested products feature ABENA's Top-Dry Technology which ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The soft nonwoven belt, mounted through the backside of the product, is a good fixation solution for all body shapes. With the extra belt length you do not need a separate extension belt. The optimum fit is also provided by the fluted elastics on the front and rear of the product. The easy to adjust fasteners (velcro hooks on the belt and combi tape on the product) can be repositioned several times. The unique fitting properties make ABENA Wing an excellent solution for users who are able to self-manage. The wetness indicator with graduation scale guides the user and caretaker to the product with the right absorption level and aids product changes. The Odor control system minimizes unpleasant smells.

ABENA Let

Multipurpose pads and boosters

ABENA Let is a multipurpose pad used as a maternity pad, booster, absorbing pad for wound care, or as a pad for light incontinence. We recommend that ABENA Let products are used in combination with our fixation pants to ensure a comfortable and secure fit.

- Fully breathable materials support a healthy skin balance
- ABENA Let Anatomic can be sterilized, making it suitable for post-op usage
- Booster pads can be placed inside other incontinence products for extra protection
- Super soft material for optimal comfort
- Available in different sizes and absorption levels

Multipurpose Pads

Pad, ABENA Let

Item number	Size	Dimensions	Absorption Rothwell	Pcs per pk / pk per cll
70152	Super Airlaid	32 x 12 cm	140 ml	100 / 6
1000021343	Normal	39 x 14 cm	500 ml	34 / 9
1999905441	Maxi	60 x 15 cm	1100 ml	28 / 4

The ABENA Let product range is a rectangular pad solution for broad applications. Both ABENA Let Airlaid Super, Normal, and Maxi are used mainly as a booster pad to provide extra absorption, but can also be used as a maternity pad or absorbing pad for wound care. The fully breathable pads with non-woven backsheet ensure healthy skin and optimum comfort for the user. They are available in different sizes and absorption levels. ABENA Let Normal and Airlaid both contain superabsorbent polymer (SAP) for Odor control system.

Pad, ABENA Let

Item number	Size	Dimensions	Absorption Rothwell	Pcs per pk / pk per cll
1000021344	Mini	39 x 14 cm	500 ml	32 / 9

ABENA Let Mini is ABENA's rectangular pad with a soft and thin core to provide discreet security for light incontinence. The textile-like backsheet features an adhesive strip which easily fixates to regular tight-fitting underwear or special ABENA fixation pants.

ABENA Let

Item number	Size	Dimensions	Absorption Rothwell	Pcs per pk / pk per cll
1000021345	Anatomic	44 x 20 cm	500 ml	30 / 9

ABENA Let Anatomic is ABENA's anatomically shaped multipurpose pad with non-woven backsheet. The efficient core with Top-Dry Technology ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with invisible lying leakage barriers for extra protection. The Odor control system minimizes unpleasant smells. All products feature the Nordic Swan Ecolabel.

Bariatric Products

Premium protection for severely obese users

Our bariatric-sized products are designed to improve the everyday comfort and independence of severely obese (bariatric) people living with incontinence to enhance their quality of life. With our range of bariatric products, we want to increase the well-being of the individual as well as offer better tools for healthcare workers to assist bariatric users.

- Top-Dry Technology ensures a dry feeling
- Fully breathable materials support a healthy skin balance
- Designed for bariatric anatomy for an optimum and secure fit
- ABENA San with extended length providing extra security
- ABENA Pants offers a higher elasticated waistband
- ABENA Slip offers flexible side panels

Bariatric Products

Shaped pad, ABENA San

Item number	Size	Dimensions	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021315	7/XXL	84 x 46 cm	2000 ml	Premium	26 / 4
1000021316	11/XXL	84 x 46 cm	3400 ml	Premium	16 / 4

ABENA San 7/XXL and 11/XXL are ABENA's range of anatomically shaped pads designed for bariatric use. The longer pad provides greater security for all body shapes. The high performance core with Top-Dry Technology ensures optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable pads are fitted with standing leakage barriers combined with built-in cross barriers at the rear. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to determine the right absorption level and product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel. These bladder protection pads should always be used with special fixation underwear, like our ABENA Fix Pants Super 4-6XL products, both to ensure a tight fit and to reduce the risk of leakage. ABENA's two-piece systems, consisting of a pair of fixation pants and an incontinence pad, are a cost-effective solution, as they use less raw materials, thereby having less impact on natural resources and the environment.

Pants, ABENA Pants

Item number	Size	Hip size	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1999905360	XXL1	150-203 cm	1700 ml	Premium	20 / 4

ABENA Pants Bariatric is our modern disposable pants for people with hip size up to 203 cm that can be worn like normal underwear for moderate incontinence. The products are fully breathable and feature the Top-Dry Technology for optimum comfort and skin protection and care. The soft pants are equipped with a waistband made of multiple strands of elastics which offers a secure and comfortable fit for the active user. The products are also fitted with standing leakage barriers for extra protection. The Odor control system minimizes unpleasant smells.

Briefs, ABENA Slip

Item number	Size	Hip size	Absorption Rothwell	Pcs per pk / pk per cll
1999905378	XXL1	170-254 cm	2250 ml	10 / 4

ABENA Slip Bariatric is our bladder protection briefs for moderate to heavy incontinence and designed for people with hip-size up to 254 cm. The flexible side panels with velcro tapes ensure an easy and optimum fit. The products feature the Top-Dry Technology for optimum comfort and skin care. The briefs offer a 360 degree breathability at the waist area to ensure complete skin respiration. The Odor control system minimizes unpleasant smells. The wetness indicator guides the user and caretaker to the product with the adequate absorption level and aids product changes.

ABENA Man

For an active life with incontinence

ABENA Man is a specialized range of male incontinence products designed for the male anatomy. The range offers bladder protection in various shapes and sizes and a discreet design that lets the user stay in control and live an active lifestyle. With ABENA Man, users no longer have to worry about leakages, odor, or the pad not staying in place.

- Designed for the male anatomy to allow free movement
- Unique leakage barriers provide an extra secure protection
- Fully breathable materials support a healthy skin balance
- Worn inside regular underwear for optimum discreetness (ABENA Man Special requires fixation pants)

Item number	Size	Dimensions	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021333	Special	73 × 37 cm	2800 ml	Premium	23 / 4

ABENA Man Special is designed specifically to fit the male anatomy. The product is intended for moderate to heavy incontinence, but also offers a secure solution for use at night. ABENA Man is produced from a high quality nonwoven material that offers extra softness and comfort. The dermatologically tested products feature ABENA's Top-Dry Technology which ensures skin integrity and optimal skin care by keeping the exposed area comfortable and dry even after multiple voids. The fully breathable and anatomically shaped pads keep the skin healthy and offer a better fit. All products are fitted with a unique barrier system with built-in pockets for extra protection so you can feel completely safe at all times. Also, the Odor control system minimizes unpleasant smells. Our dermatologically tested products have been given the Nordic Swan Ecolabel.

ABENA Junior

Developed uniquely for juniors

ABENA Junior products are incontinence products specially designed for children and teens with sudden and uncontrolled urination. The products are fully breathable and have a narrow core for an optimum fit. The range can also be used for petite elderly people where adult products are too large.

- Leakage barriers provide extra protection
- High-performance core ensures a fast absorption and dry surface
- They are designed to look like ordinary underwear with a printed textile-like back sheet
- Fully breathable materials support a healthy skin balance

Junior Products

Briefs, ABENA Slip Junior

Item number	Size	Hip size	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021279	XS2	40-60 cm	1500 ml	Premium	32 / 4

ABENA Slip Junior XS2 is our Premium bladder protection briefs designed for juniors with quick and uncontrolled urination, who fall between baby diapers and adult incontinence products. The fully breathable Junior product offers a narrower core and a smaller leg cut than adult briefs which gives a perfect fit. It is designed to look like ordinary underwear with a printed textile-like backsheet. The high performance core with Top-Dry Technology ensures fast absorption and a dry surface even after multiple voids. A combination of different barriers (visible and invisible) and elastics (curved leg elastic) offer a 360 degree leakage protection. When combined, these functionalities help protect the skin and maintain a natural pH skin balance. The Odor control system minimizes unpleasant smells. The high quality flexible combi tapes with double tape function ensure an optimum fit and easy repositioning. The wetness indicator with graduation scale helps you find the product with the adequate absorption level and aids product changes. The dermatologically tested products have been given the Nordic Swan Ecolabel.

Pants, ABENA Pants Junior

Item number	Size	Hip size	Absorption Rothwell	Quality level	Pcs per pk / pk per cll
1000021317	XS2	50-75 cm	1500 ml	Premium	18 / 5

ABENA Pants Junior XS2 is our Premium pants designed for juniors with quick and uncontrolled urination and who would otherwise fall between baby diapers and adult incontinence products. The fully breathable product offers a narrow core and super soft elasticated side panels for optimum fit perfectly suited for juniors. The specially designed Channel Technology and Top-Dry Technology offer quick absorption and a comfortable, dry feeling. Also, the product is designed to look more like ordinary underwear with a printed textile-like backsheet. The dermatologically tested products have been given the Nordic Swan Ecolabel and are made from FSC™ certified materials.

Abri-Bag

Hygienic solutions for biological liquids

ABENA Abri-Bag is a range of hygienic solutions for containing, transporting, and disposing biological liquids to avoid cross-contamination. The range comprises both bedpan and commode liners. Inside the bags, an absorbent pad converts liquid into gel, absorbing up to 630 ml while locking in fluids and odor.

- Leak-resistant plastic bags with built-in absorbent pads
- Reduces cleaning time and frees up time for other care tasks
- Single-use, disposable bags easily sealed after use with built-in drawstring
- Individually packed for convenient and hygienic usage
- Reduces the risk of cross-contamination and avoids bedpan soiling

The Abri-Bag Absorbent Commode Liner is a disposable bag with a super absorbent pad. The bag is designed to fit around a standard commode pan. The products quickly absorb body fluids in a clean and hygienic way. The superabsorber helps to quickly contain up to 630 ml of fluids by turning it into gel. The bags are easily sealed with the built-in plastic strap and disposed of in a regular waste container. The bags are single packed allowing single hand withdrawal and hygienic handling.

Fixation Products

Keeps incontinence products in place

ABENA's wide range of fixation pants in different qualities and sizes are designed to keep incontinence products in place. Fixation pants are to be used in combination with incontinence products such as ABENA San, ABENA Let, and ABENA Man Special. The range covers all degrees of incontinence and also accommodates bariatric users.

- Higher cost-effectiveness as fixation pants can be reused
- Elastic knitted construction and fixation zones for secure leakage protection
- A wider crotch and extra elasticity give maximum pad support
- The size color code is visible inside the waistband and on the packaging
- User discretion is offered through an underwear-like look and feel

ABENA Fix Pants Super are stretchy fixation pants with legs made of breathable, soft material designed to fit the anatomic shape of the body. The pants look and feel like normal underwear. The elastic material and knitted construction hold the pads tight to the body and help preventing leakages. It offers optimal performance for all activity and mobility levels. The seamless knitted technology – an innovative concept for producing clothing almost free of seams – prevents pressure marks and skin irritation. The product can be washed up to a 100 times, which ensures high cost-effectiveness through extended use. ABENA Fix Pants Super offer easy product recognition thanks to the color code both on the packaging and on the inside of the waistbands, providing information about product name, size, washing instructions, and material composition. Made of 97% polyester and 3% elastane.

Abri-Fix Cotton is an elastic breathable fixation pant without legs, made mainly from cotton material. Cotton material ensures that moisture leaves the skin, leaving the user dry and comfortable. The pants look like normal underwear. The elastic material and knitting construction holds the pad tight to the body ensuring leakage security. It offers optimal performance for all activity and mobility levels. The seamless knitting technology – an innovative concept in producing clothing almost free of seams - prevents pressure marks and skin irritation. The products can be washed 100 times, therefore have a high cost effectiveness through a longer usage.

Abri-Fix Cotton have colour coded waistbands representing size; together with product name, washing instructions and material composition. Made of 75% cotton, 18% polyamide, 7% elastane

ABENA Nova

Digitalized incontinence care

With ABENA Nova's incontinence products with built-in sensor technology that carefully monitors saturation, you can bring reliability and convenience back to continence care. By alerting staff when it's time for a change, ABENA Nova saves time and effort, giving healthcare workers the peace of mind to focus on what really matters — providing the highest level of care.

- Saves time and resources by eliminating the need for manual checks
- Improves planning of continence care as products are only changed when needed
- Improves users' sleep as there is no need for routine nightly check-ups
- Reduces the number of incontinence products used by eliminating unnecessary changes
- Frees up resources for individualized care

ABENA Nova is the intelligent version of our premium of all-in-one briefs for moderate to heavy incontinence. ABENA Nova is a solution providing real-time and actionable data for timely and personalized continence care, and is comprised of: an incontinence product with integrated sensors, a personal clip that logs and sends data and an user-friendly app and data storage. The breathable and anatomically shaped briefs with curved leg elastics keeps the skin healthy and offer an excellent fit. All products are fitted with standing leakage barriers and fluted elastics at the rear end for extra protection. The curved elastics and extra elastics by the leg provide ultimate leakage protection. The Odor control system minimizes unpleasant smells. The high quality flexible double tapes ensures easy and optimum fit and easy repositioning. The incontinence product is also equipped with built-in flexible side panels for optimum fixation and easy application. The products feature the Top-Dry Technology which ensures a dry surface even after repeated urination, maintaining skin integrity. The efficient dual wrapped core provides full absorption exactly where needed. These dermatologically tested products feature the Nordic Swan Ecolabel.

Bambo Nature

More than 40 years of experience in care for babies

Bambo Nature's biggest commitment is to create safe, gentle, and effective baby products to offer babies the best possible start in life. Therefore, we only use raw materials of the highest quality,

and we make sure that all our products are certified and tested by independent third parties to ensure the best baby care possible.

Why you should choose baby products from Bambo Nature:

- The first baby diapers in the world to be certified with the Nordic Swan Ecolabel
- Designed for delicate baby skin with no perfume or harmful chemicals
- Made with breathable materials to minimize the risk of diaper rashes
- All products are dermatologically tested and suitable for sensitive skin

Baby Diapers

Eco-labeled diapers with premium protection

Bambo Nature diapers are soft, comfortable, and keep even the most sensitive skin dry. The diapers are designed with a super-absorbent core using the latest channel technology that leads moisture away from the baby's skin and holds up to multiple wettings. The range also includes Night Pants for older children experiencing bed-wetting, as well as disposable swim diapers.

- Highly certified and eco-labeled
- Soft, flexible fit for comfort and freedom of movement
- Double leak barriers for added protection
- Free from perfume and parabens
- Breathable materials to minimize the risk of diaper rash

Bambo Nature is not only a comfy, absorbent diaper for your child. It is also an eco-labeled diaper developed with great concern for our environment. Based on Nordic traditions for sustainability, we produce our diapers with great love and care in Denmark, and with a strong commitment to protecting the environment in all our manufacturing processes. And at the same time, we ensure that our Bambo Nature diapers are completely free of dangerous chemicals and perfumes to minimize the risk of allergy and diaper rash. Our environmental commitment also extends to our diaper packaging, which consists of 30% post-consumer recycled plastic. The recycled materials originate from consumer household plastic waste, which is carefully cleaned and sorted by grade. The packaging should be recycled with other plastic waste. Our Bambo Nature diapers are FSC™ (Forest Stewardship Council), Nordic Swan, dermatologically tested and Asthma Allergy labeled. Bambo Nature – Because you care.

Bambo Nature Changing Mat is an extra soft breathable disposable underpad for protection of beds and chairs during diaper changes. The breathable back sheet minimizes the risk of skin irritations. In addition, the underpad has sealed edges for optimum leak protection, and the surface is covered with a soft non-woven material for enhanced comfort for your baby.

Bambo Nature Changing Mats offers moderate absorption.

Bambo Nature Protective Bed Mats

BAMBO
Nature

Pcs per pk
/ pk per cll

Item number	Dimensions	Color	
1000023732	60 × 90 cm	White	10 / 8

Bambo Nature Protective Mats are breathable disposable underpads for protecting beds and seating. Providing extra mattress protection for children's beds and cots, these Protective Mats are ideal for children, as the breathable back sheet reduces the risk of skin irritation. The underpad contains both fluff and SAP, which encapsulate liquid, to provide a dry surface faster. In addition, the bed mats have sealed edges for optimum leakage protection, and their surface is covered with a soft nonwoven material for a high level of user comfort.

Bambo Nature Protective Mats provide moderate absorption.

Baby Skincare

Just as gentle as they are effective

Bambo Nature's skincare products are carefully designed for delicate and sensitive baby skin. We believe that less is more, therefore, our products contain no unnecessary ingredients or additives. All Bambo Nature skincare products are perfect for the everyday care of sensitive baby skin.

- Free from perfume and color
- Suitable for sensitive skin
- Recommended by Asthma Allergy Nordic
- Eco-labeled and Vegan

100001193810	No colorant or perfume SCA	150 ml	5-5,5	6 / 8 pcs per pk / pk per cll

Bambo Nature Hair & Body Wash makes giving a bath a fun and enjoyable experience. 19% of the total ingredients are from organic farming and 99% natural origin. The soap's specially developed formula cleans the child's body, hair, and delicate scalp, while protecting their sensitive eyes from irritation. Our soap is dermatologically tested, suitable for sensitive skin and can be used by the whole family.

Baby Oil, Bambo Nature

Item number	Features	Volume, net	
1000011937	No colorant or perfume, EU	145 ml	Pcs per pk / pk per cll 6 / 8

Bambo Nature Baby Oil is specially developed for delicate, sensitive baby skin, as well as for dry skin. It is ideal for the bath, whether you can choose to mix it in the bath water or use it under the shower. Our Bambo Nature baby oil provides the skin with plenty of moisture and can therefore also be massaged into dry skin, just as it can be applied to cradle cap on the scalp. The product is dermatologically tested suitable for sensitive skin and 100% natural origin.

Body Lotion, Bambo Nature

Item number	Features	Volume, net	pH value (conc.)	Pcs per pk / pk per cll
1000011936	No colorant or perfume, EU	100 ml	5-5,5	6 / 10
100001193610	No colorant or perfume, SCA	100 ml	5-5,5	6 / 10

Bambo Nature Body Lotion is a particularly moisturizing lotion specially developed for babies and children's delicate skin. The product contains organically certified aloe vera and nourishing oils that supply necessary lipids, restore the natural moisture balance, and leave the skin soft and smooth. Our Bambo Nature Body Lotion has 23% lipids and has been developed using a mild and gentle formula, which makes it ideal for everyday use by the whole family. It does not contain neither fragrance nor colorants, thus minimizing the risk of allergic reactions and skin irritation. The product is dermatologically tested, suitable for sensitive skin and 100% natural origin.

Soothing Cream, Bambo Nature

Item number	Features	Volume, net	Pcs per pk / pk per cll
1000011935	No colorant or perfume, EU	100 ml	6 / 10
100001193510	No colorant or perfume SCA	100 ml	6 / 10

Bambo Nature Soothing Cream is a special water-repellent cream with nourishing properties for delicate and sensitive baby skin, as well as for dry skin. Containing 38% lipids, the cream is particularly suitable for skin that is exposed to moisture, for example around the mouth and in the diaper area. The cream forms a barrier that acts as a protective film on the skin, while also allowing the skin to breath. The cream is absorbed quickly and is non-greasy. Can be used in combination with Bambo Nature wet wipes. The product is dermatologically tested, suitable for sensitive skin and 100% natural origin.

1999910257	SPF 30, no colorant or perfume, 23% lipids, SCA	500 ml	5-5,5	6 / 104

Bambo Nature Sunscreen SPF 30 gives you outstanding sun protection through a wide selection of certified sun creams that cover the entire family's need for effective sun protection. What Bambo Nature sunscreens have in common is that they protect effectively against the sun's harmful UVA and UVB rays, while also being light in texture and quickly absorbed.

All Bambo Nature's sunscreens are certified with the Nordic Swan Ecolabel and by the Vegan Society, and recommended by Asthma Allergy Nordic, dermatologically tested on sensitive skin, and do not contain neither fragrance nor colorants. The products are Reef Safe, which means that they have been developed so that they have as little impact on the maritime environment as possible when you bath with the sunscreen on.

Remember to avoid the midday sun and apply sunscreen regardless of whether you are directly in the sun or stay in the shade.

1000011932	No colorant or perfume, with tape opening, 10 pcs.	20 × 16 cm	Viscose	4-5	Z-fold	10 / 24

Bambo Nature Biodegradable Wet Wipes are made of 100% viscose and are a really good alternative to a daily bath, which also has a gentle effect on the skin. The wet wipes are for personal care and developed specially for babies' delicate skin, but can be used by all age groups. The wet wipes have a soft texture that feels comfortable even on sensitive and exposed skin areas. They can be used over the whole body and remove dirt easily and effectively. At the same time, they are hygienic as they are disposable. When you choose our plastic-free biodegradable wet wipes, you are not only choosing a really good product in terms of body care and body wash – you are also choosing a product that strives to take the environment into consideration.

Bed Protection

Absorbing underpads for every need

As an essential part of a holistic approach to healthcare, disposable and washable bed protection provides comfort for the user while relieving the workload of healthcare staff.

For that extra protection for those living with incontinence, medical procedures, bed bathing, and other care situations in and around the bed, bed protection is the right choice anywhere you need to absorb liquids.

Why you should choose bed protection from ABENA:

- Developed in close cooperation with healthcare professionals
- We carefully select and source our raw materials
- Abri-Soft underpads are manufactured at our production facility in France

Washable Underpads

Everyday security and comfort

A washable underpad is particularly ideal for people living with incontinence who would like an extra layer of protection, for instance, during the night. ABENA's washable underpads are discrete, noiseless, and comfortable to lie on while having a barrier layer made from PU, which still allows the skin to breathe.

- Made with a soft polyester surface and a liquid-absorbing core for a dry feeling
- Has a liquid-safe barrier layer made from PU, which is also breathable for better skin conditions
- Looks and feels like a regular sheet for optimal discreteness
- Can be washed at minimum 100 times at 95°C and withstands tumble drying

ABENA Protective Sheet Reinforced are used for protection of e.g. beds and couches. The protective sheet has an absorbent surface and a liquid safe back sheet, and the sealed sides provide optimum protection against leakage. The threads make the protective sheet extra strong, making it well-suited to reposition users in the bed. Using disposable protective sheets reduces the risk of contamination and improves hygiene.

ABENA Protective Sheet Reinforced is available in different sizes.

ABENA Small Protective Sheets

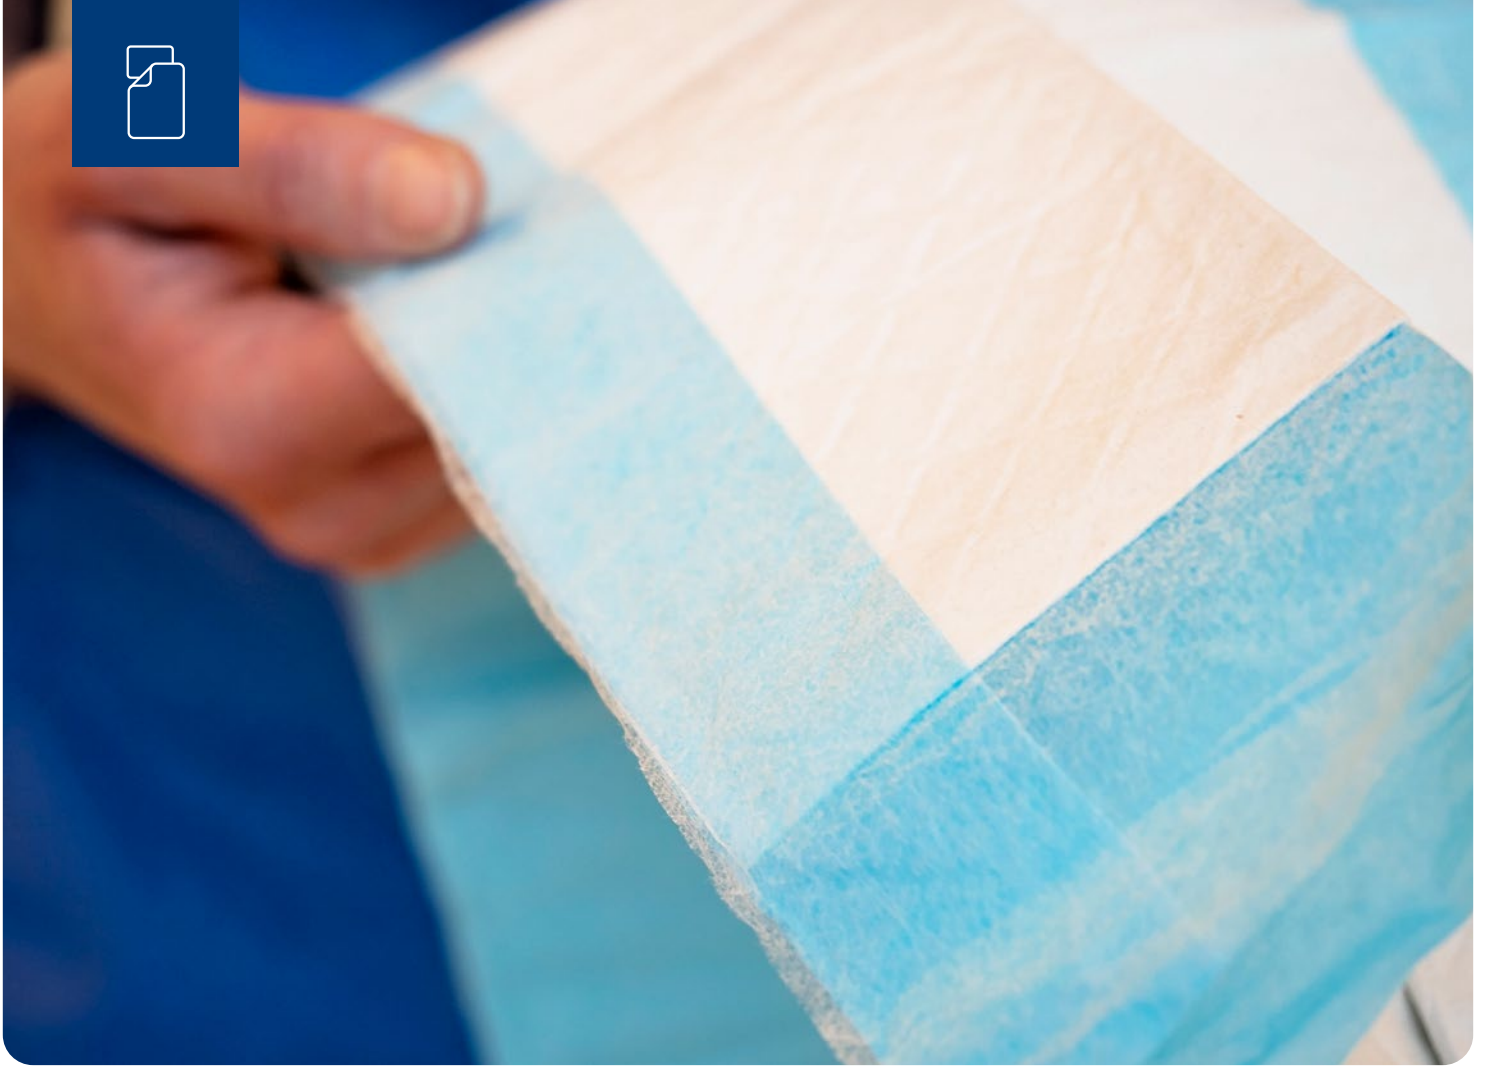

Item number	Material	Width	Length/ depth	Pcs per pk / pk per cll
1000024421	PE, tissue	50 cm	37 cm	150 / 6

ABENA Small Protective Sheet is used for protection during non-sterile procedures such as, e.g. changing dressings and blood sampling. The underpad has an absorbent surface, and a liquid safe back sheet.

ABENA Small Protective Sheet is available in different sizes.

Tissue Underpads

The easy and hygienic choice

ABENA Tissue Underpads are ideal for non-sterile procedures such as wound care and blood samples, as well as for providing extra protection for people living with incontinence. Our tissue underpads are comprised of 6-8 layers of tissue and have a waterproof backside to prevent leakages. The underpads are sealed on all four sides, creating stable and strong edges.

- With sealed barriers for optimal security
- A soft nonwoven surface and comfort
- Disposable after use for easy and hygienic handling
- Waterproof back sheet for leakage control

Bed Protection

Disposable Tissue Underpads

ABENA Tissue Underpads

Item number	Material	Layer quantity	Width	Length/ depth	Absorption Rothwell	Pcs per pk / pk per cll
1999915542	Nonwoven, PE, tissue	6 layers	40 cm	60 cm	300 ml	25 / 16
1999915543	Nonwoven, PE, tissue	6 layers	60 cm	90 cm	650 ml	25 / 6
1999915544	Nonwoven, PE, tissue	8 layers	30 cm	60 cm	350 ml	30 / 12
1999915545	Nonwoven, PE, tissue	8 layers	60 cm	90 cm	800 ml	25 / 4
1999915546	Nonwoven, PE, tissue	6 layers	60 cm	60 cm	550 ml	25 / 12

ABENA Tissue Underpads is used as a protective disposable underpad for e.g. beds and chairs. It is suitable for non-sterile procedures, such as wound care and blood tests, but it can also be used for incontinent users. The underpad has sealed edges for optimum leakage protection, and the surface is covered with a soft nonwoven material for enhanced user comfort. The use of disposable underpads reduces the risk of contamination.

ABENA Tissue Underpads is available in different sizes and with different layers of tissue.

Couch Rolls

Convenient protection of examination tables and couches

ABENA's disposable couch rolls offer an easy and convenient way to protect couches and examination tables from spills. The couch rolls are available with perforations that allow you to use the product together with a dispenser for quick and easy handling between patients.

- Increases hygiene and reduces the risk of cross-contamination
- Made from an absorbent material and available in an EU Ecolabelled version
- Available with a waterproof backside for increased protection
- Available in a perforated and unperforated version

Bed Protection

Disposable Couch Rolls

Dispenser for couch rolls

Item number	Material	Features	Pcs per cll / ccl per pll
2575	Stainless steel	For couch rolls with max width of 60 cm. Screws are included.	1 / 135

Convenient dispenser for couch rolls that make sheet tear-off quick and easy. Can be used for both perforated and non-perforated couch rolls.

ABENA Couch Rolls

Can be used as a cover/protection for wound dressings or blood sampling and as a dental bib where a liquid safe back-sheet is desired.

Skincare and Body Wash

Give the skin what it needs. No more, no less

The skin is the body's largest organ and protects the body from infections. Therefore, proper skincare and hygiene routines are essential to keeping the whole body healthy.

At ABENA, specialized nurses and product experts are ready to help you put together the right products to fit your care routines or tackle skin challenges such as Incontinence Associated Dermatitis (IAD).

Why you should choose skincare and body wash from ABENA:

- Our products are developed in cooperation with experts and nurses
- We use ingredients that are gentle on the skin
- Most of our products are dermatologically tested
- We are ready to help you choose the right products

Incontinence Associated Dermatitis (IAD)

IAD is an inflammation of the skin that occurs when it comes into contact with urine or feces. IAD causes the skin to become red and inflamed and is very uncomfortable for those affected.

Besides using the right incontinence products, using suitable skincare and body wash products is essential when preventing or treating IAD.

With patients' quality of life as our highest priority, ABENA provides a gentle and protective solution.

STEP 1

Breathable protection

The first step in preventing IAD is to choose the right incontinence product. We always recommend choosing a product as small as possible and as large as necessary. This concerns both the size and absorbency of the product. A large product that can absorb more is not always better.

STEP 2

Gentle cleansing

Washing the skin with traditional soap and water and drying it with a towel can dry out the skin and increase friction on the already sensitive area. Instead, cleansing with wet wash gloves or wet wipes is recommended. Wash without water products have also been shown to improve efficiency in daily care.*

STEP 3

Moisture and barrier

Applying moisture and barrier to help restore and protect the skin is essential. Allantoin is a calming and moisturizing ingredient that sustains the skin's natural moisture balance, while dimethicone helps form a protective barrier that protects and calms simultaneously.

* Based on findings from a study on ABENA's green range (Lisette S, Betsie GvG, Steven T, Cost-consequence analysis of "washing without water" for nursing home residents: A cluster randomized trial, Int. Journal of Nursing Studies 2014)

www.abena.com

The Right pH Balance

The skin is the body's largest organ, weighing around 15% of the average person's body weight.

The skin serves as an antimicrobial defense mechanism for the body; its primary function is to protect us against bacteria and viruses.

The skin consists of a group of bacteria called normal flora that protects us from pathogenic microorganisms. Normal flora converts sebum into fatty acids (lipids), which lower the pH of the skin

and inhibits the growth of many pathogenic bacteria.

Normal flora growth is optimal at acidic pH levels (1–3), while neutral pH is better for some other microorganism (4–6). Meanwhile, an alkaline pH value (7–14) risks removing the skin's lipids, thereby stripping the skin of its natural barrier.

Therefore, choosing skincare products with a pH between 4–6 is recommended.

Learn more:
www.abena.com

Did you know?

- All ABENA's skincare products have a pH value between 4–6
- Too much soap and water can dry out and irritate the skin
- Using too much soap can change the pH value of the skin and destroy the skin's natural barrier

Creams and Lotions

All-round products for daily skincare

ABENA's yellow range of skincare products includes creams and lotions for normal and exposed skin. Our creams and lotions are developed to add moisture and hydration back into the skin to strengthen and restore elasticity and regenerate the skin, which is our defense system. Most products are labeled with the Nordic Swan Ecolabel and are certified by Asthma Allergy Nordic.

- Includes perfume-free products
- Suitable for sensitive skin
- Suitable for everyday use and for the entire family
- Contains ingredients that nourish the skin

Skincare

Special Creams and Ointments

Skincare Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
7759	No colorant or perfume	75 ml	5-6	12 / 252
6659	No colorant or perfume	150 ml	5-6	12 / 252

ABENA's Skincare Ointment with 41% lipids is ideal for very dry and irritated skin. A series of tests have shown that the composition of ingredients helps maintain the skin's natural moisture balance for up to 24 hours. The ointment also creates a protective barrier, which improves the skin's structure and helps to improve the skin. Our unique skincare ointment contains both dimethicone and allantoin, which is the perfect combination for an ideal good all-round ointment. The ointment does not contain any colorant or perfume.

Zinc Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
6963	No colorant or perfume, 20% zinc	100 ml	4-5	12 / 225
6996	No colorant or perfume, 20% zinc	15 ml	4-5	400 / 55

ABENA's Zinc Ointment is an ideal barrier cream for protecting sensitive skin. With a 20% zinc oxide content, the ointment leaves a protective barrier for up to 8 hours. The unique water-in-oil emulsion provides the necessary moisture and protection to the skin, and in combination with Shea butter, it has a soothing effect on the skin. The Zinc Ointment does not contain any perfume or colorants. For all skin types and for daily use.

Zinc Paste, ABENA

Item number	Features	Volume, net	Ml per pcs / pcs per cll
1999910494	No perfume, 40% zinc	60 ml	60 / 6

ABENA's Zinc Paste is ideal for skin that needs a water-repellent barrier. With 40% zinc oxide content, the paste leaves a protective barrier. The unique paste also provides the necessary moisture and protection to the skin, and in combination with allantoin, it has a soothing effect on the skin. The paste does not contain any perfume or colorants. Suitable for all skin types.

Zinc Oxide Spray, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
1000003933	No colorant or perfume, 10% zinc	100 ml	5-6	6 / 324

ABENA's Zinc Spray is for skin that needs a zinc-based product that is easy to apply. The product is ideal for sensitive and delicate skin. With a content of 10% zinc oxide, the lotion leaves a protective barrier. The unique spray applicator TLT (Thin Layer Technology) distributes the lotion evenly. This minimizes the need for physical contact and, furthermore, keeps hygiene intact. Suitable for all skin types and for daily use.

Skincare

Special Creams and Ointments

Intensive Care Cream, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
6970	No colorant or perfume, 70% lipids	200 ml	4-5	12 / 120
6966	No colorant or perfume cream, 70% lipids	100 ml	4-5	12 / 180
6988	No colorant or perfume cream, 70% lipids	30 ml	4-5	20 / 288

ABENA's Intensive Care Cream is specially developed for the care of very dry and irritated skin. The high lipid content (70%) creates a natural barrier without leaving the skin feeling greasy. The barrier effect lasts up to 5 hours, making it extremely suitable for severe skin irritations. Note that the cream does not impact the effect of chlorhexidine found in disinfection products. ABENA's Intensive Care Cream does not contain either any colorants or perfume, and can be applied to both body and face, as well as hands and feet. Making it a great all-round cream for the whole family.

Barrier Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
6992	No colorant or perfume	30 ml	4-5	150 / 55

ABENA's Barrier Ointment has a unique water-in-oil emulsion that provides the necessary moisture and protection to the skin. Additionally, it acts preventively in relation to sensitive skin in exposed areas and is a very effective remedy for dry and delicate skin. The ointment creates an effective, water-repellent barrier and olus oil helps to maintain a natural moisture balance of the skin. For all skin types and for daily use.

6654	No colorant	250 ml	5-6	6 / 192

ABENA's Active Gel contains essential oils such as peppermint, eucalyptus, and menthol oil which gives the product a cooling effect. The gel is perfect for massage. The gel is made without preservatives and contains moisturizing effect that prevent your skin from being dehydrated.

Wash Without Water

For a fresh and comfortable no-rinse bath

All products in ABENA's green range are rinse-free, meaning they do not need to be rinsed off with water. The range ensures a comfortable and effective way to maintain hygiene standards and is ideal for bedridden patients, terminal patients, and people with thin and sensitive skin. Most products are dermatologically tested and pH adjusted.

- No-rinse products save both time and resources
- Eases work processes during bed bathing as no wash basin, cloths, etc., are needed
- Maintains skin integrity and pH balance
- Intelligent packaging that upholds high hygiene standards
- Associated with improved skin conditions in cases of IAD (Incontinence Associated Dermatitis) and pressure ulcers

Body Wash

Wash without Water

Washing Lotion, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6964	No colorant or perfume	500 ml	5-6	500 / 6

ABENA's Washing Lotion is a mild and effective lotion developed for gentle body washing and personal hygiene. A good alternative in various situations when you don't have access to a traditional bath. This washing lotion has been developed specifically for people who are bedridden or have mobility difficulties.

This lotion is so special because it can be used without water, and leaves you with a pleasant and clean feeling. ABENA's Washing Lotion is mild and gentle on the skin, and it is available with and without perfume. It effectively removes unpleasant odors and leaves the skin fresh and clean. It simultaneously protects and cares for the skin, thanks to ingredient allantoin. When combined with a soft cloth or wash glove, it is a very gentle way to wash with very little friction. This washing lotion can be used on both children and adults.

ABENA's Washing Lotion is a mild and effective lotion developed for gentle body washing and personal hygiene. A good alternative in various situations when you don't have access to a traditional bath. This washing lotion has been developed specifically for people who are bedridden or have movement difficulties. What makes this lotion so special is that it can be used without water, yet leaves you with a pleasant and clean feeling. ABENA's Washing Lotion is mild and gentle on the skin, and it is available with and without perfume. It effectively removes unpleasant odors and leaves the skin fresh and clean. It simultaneously protects and cares for the skin, thanks to ingredient allantoin. When combined with a soft cloth or wash glove, it is a very gentle way to wash with very little friction. This washing lotion can be used on both children and adults.

Cleansing Foam, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6658	No colorant - with perfume	400 ml	5-6	400 / 6

ABENA's Cleansing Foam is mild and soft and has effective cleaning properties for personal hygiene. A good alternative to traditional washing with soap and water. This cleansing foam is particularly suitable for people with delicate skin who need as little friction as possible when washing.

The foam is easy to apply and gentle on the skin. The product is ideal when changing incontinence products, as the foam quickly and effectively dissolves feces and removes unpleasant body odors. Excess cleansing foam can be removed with ABENA's disposable wash glove. ABENA's Cleansing Foam contains specifically selected ingredients that protect delicate skin, and cares for the skin by supplying the necessary moisture. The product can be used by both children and adults. Suitable for daily use.

Body Wash

Wash without Water

Hair and Body Wash, ABENA

Item number	Features	Volume, net	pH value (conc.)	MI per pcs / pcs per cll
6993	For washing without water, no colorant or perfume	200 ml	5-6	200 / 6

ABENA's Hair and Body Wash is the ideal go-to solution in various situations when you don't have access to a traditional bath. The soap has been developed specifically for people who are bedridden or have movement difficulties.

What makes this soap completely unique compared to other similar skincare products is that it can be used without water, and yet leaves you with the pleasant sensation of having showered. The soap is gentle on the skin and is available with and without perfume. And as the name indicates, it can be used for both body and hair washing. ABENA's Hair and Body Wash is easy to use and effectively removes unpleasant odors, leaving the skin fresh and clean.

Wash Glove, Molton, ABENA

Item number	Features	Dimensions	Material	Pcs per pk / pk per cll
491910	Ultrasonic sealed	23 x 16 cm	Polyester	50 / 20
491930	 Ultrasonic sealed	22.5 x 14.8 cm	Polyester	50 / 15
1000001133	Ultrasonic sealed, PE inside	23 x 16 cm	PE, polyester	50 / 20

ABENA's Wash Glove for personal hygiene is made of polyester and designed for single-use. The glove is intended for full-body washing, and its soft and comfortable material makes it particularly suitable for washing exposed areas and for delicate and sensitive skin.

The glove is extremely strong and absorbent, even when wet. The practical opening in the wash glove makes it easy to put on. We also recommend using an ABENA nitrile glove under the wash glove for extra protection against bacteria and viruses. The wash glove is welded on the sides (ultrasonic sealed), which makes it smooth and comfortable when it comes into contact with skin. At the same time, this means that you get a strong and highly hygienic glove that can be used in various situations like patient care, private chores, in the gym, or on a camping holiday, when there are limited opportunities for a proper bath.

Wash Gloves, Spunlaced, ABENA

Item number	Features	Dimensions	Material	Pcs per pk / pk per cll
1000001134	Ultrasonic sealed, embossed	23 x 16 cm	Polyester, viscose	50 / 20

ABENA's Wash Glove for personal hygiene is made of polyester and viscose and designed for single-use. The glove's nubbed surface makes it easier to remove impurities and bacteria from the skin. The glove is intended for washing the whole body, but its soft and comfortable material makes it particularly suitable for washing exposed areas and delicate skin.

The glove is strong and absorbent, even when wet. The practical opening in the wash glove makes it easy to put on. We also recommend using an ABENA nitrile glove under the wash glove for extra protection against bacteria and viruses. Our wash glove is practical and hygienic. And it is easy to use in a wide range of situations; i.e. patient care, private chores or on a camping holiday, when there are limited opportunities for a proper bath.

Body Wash

Wash without Water

Wash Gloves, Airlaid/PE, ABENA

Item number	Features	Dimensions	Material	Pcs per pk / pk per cll
491914	Ultrasonic sealed, embossed	22 x 16 cm	Airlaid, PE	50 / 20

ABENA's Wash Glove for personal hygiene is made of airlaid material and developed for single-use. The air-treated material makes the wash glove particularly soft and comfortable for sensitive and delicate skin. The glove has high absorption capacity - up to six times its own weight.

At the same time, the wash glove has a significantly greater strength when wet compared to traditional paper. This is because the glove has been developed with an inner layer of PE film, which makes it stronger when it gets wet. The nubbled surface of the glove makes it easier to remove impurities and bacteria from the skin. The practical opening in the glove makes it easy to put on the glove. We recommend wearing a nitrile glove inside the wash glove for protection against bacteria and viruses. Note that the wash glove can be used on both sides.

Wash Cloths, Airlaid, ABENA

Item number		Dimensions	Material	Layer quantity	Folding method	Pcs per pk / pk per cll
4923		20 x 20 cm	Airlaid	1 layer	Plain	100 / 15
246008		26 x 20 cm	Airlaid	1 layer	Plain	150 / 7
4924		30 x 20 cm	Airlaid	1 layer	Z-fold	100 / 15
4926		38 x 29 cm	Airlaid	1 layer	Z-fold	50 / 12
71616		30 x 19 cm	Airlaid	1 layer	½ C-fold	134 / 6
246006		20 x 17 cm	Airlaid	1 layer	Plain	250 / 10
246015		20 x 17.5 cm	Airlaid	1 layer	Plain	250 / 10
246016		20 x 17.5 cm	Airlaid	1 layer	Plain	156 / 10

ABENA's Airlaid Wash Cloth for personal hygiene is a really good disposable wash cloth for full body washing. The cloth is made of a special air-treated material, which makes it extra soft and therefore ideal for washing the entire body - not least for people with delicate and exposed skin. At the same time, this paper washcloth has a very high absorbency. In fact, it can absorb up to six times its own weight. The airlaid washcloth also has much greater strength when wet compared to traditional paper.

If the cloth is moistened in water, it becomes extra soft and comfortable against the skin, which makes it particularly suitable for patient care, baby washing, and for people with delicate skin. The disposable wash cloth can also be an ideal solution for general beauty care when you just want to take extra care of your skin.

Towel, Airlaid, ABENA

Item number	Dimensions	Material	Layer quantity	Folding method	Pcs per cll / cll per pll
246010	60 x 27 cm	Airlaid	1 layer	3-fold	344 / 16

ABENA's Airlaid Paper Towel is particularly soft and gentle on the skin and therefore an obvious solution for drying your whole body. The air-treated material makes the disposable towel extra soft and absorbent - up to six times its own weight. Although it is made of paper material, the towel has very good strength and is of good quality, which far surpasses ordinary paper. The soft material also results in less friction, which makes it ideal for delicate and extra sensitive skin.

Body Wash

Wash without Water

Wash Cloths, Paper, ABENA

Item number	Dimensions	Material	Layer quantity	Folding method	
246062	 25 × 19 cm	Tissue	6 layers	C-fold	125 / 8 pcs per pk / pk per cll
246061	26 × 19 cm	Tissue	6 layers	Plain	120 / 10 pcs per pk / pk per cll
246060	19 × 19 cm	Tissue	6 layers	Plain	1000 / 30 pcs per cll / cll per pll
246051	19 × 19 cm	Tissue	3 layers	Plain	1800 / 30 pcs per cll / cll per pll
246050	19 × 19 cm	Tissue	3 layers	Plain	125 / 20 pcs per pk / pk per cll

ABENA's Paper Wash Cloth for personal care and wiping is a good solution, when there is a focus on both quality and cost. Even though it's made of paper, we do not compromise on good skincare. The disposable cloth is soft and comfortable against the skin and therefore particularly suitable for a full body wash. This disposable cloth can be used for all ages and skin types. It is a good idea to moisten the paper wash cloth before use to achieve extra softness and comfort.

Foam Cloths, ABENA

Item number	Dimensions	Material	Pcs per pk / pk per cll
4984	 190 × 190 × 2.8 mm	PU	75 / 56
4985	 190 × 190 × 2.8 mm	PU	75 / 40
4986	190 × 190 × 2.8 mm	PU	75 / 56
4990	200 × 200 × 5 mm	PU	50 / 40

ABENA's Foam Cloths for personal care is a classic disposable cloth that effectively removes impurities. An ideal go-to solution and many people's favorite for various washing situations. The foam wipes can be used both with and without water. We recommend that you combine the wipe with the popular quality products of our blue range, which have been developed for washing with water. The foam wipe can also be combined with the innovative products from our green range (washing without water). In other words, the foam wipe can be used in virtually all situations, and are easy, practical, and effective.

Wet Wipes, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	Pcs per pk / pk per cll
6598	 No perfume, with rigid lid	18 × 20 cm	Polyester, viscose	4-6	Z-fold	80 / 16
6595	 No perfume, with plastic lid	20 × 27 cm	Polyester, viscose	4-6	Z-fold	80 / 12
659710	 No perfume, with plastic lid	18 × 20 cm	Polyester, viscose	4-5	Z-fold	80 / 16
1000006337	No perfume, with rigid lid	20 × 18 cm	Polyester, viscose	4-6	Z-fold	80 / 20
1000006338	 No perfume, with plastic lid, 80 pcs.	20 × 18 cm	Polyester, viscose	4-6	Z-fold	80 / 16
1999914164	 No perfume, with plastic lid, 80 pcs.	20 × 27 cm	Polyester, viscose	4-6	Z-fold	80 / 12

ABENA's Wet Wipes for personal hygiene are made of polyester and viscose, which makes them extra soft and comfortable against the skin. Our wet wipes are a great alternative to traditional washing with soap and water and, thanks to the neutral pH value, they can be used all over the body. They easily and effectively remove impurities and unpleasant odors. ABENA Wet Wipes are available in different sizes and packages, which makes it easy to find the right solution for your personal needs. And of course, the wet wipes are extremely practical to take with you when you're on the go.

Body Wash

Wash without Water

Bed Bath Wipes, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Pcs per pk / pk per cll
491919	No perfume, 4 pcs.	20 × 23 cm	Viscose	4,5-5	4 / 36
491918	No colorant or perfume, 8 pcs.	20 × 23 cm	Viscose	4,5-5	8 / 20

ABENA's Bed Bath Wipes are made from 100% viscose. The strong, quality material in our wet wipes ensures a nice, soft and comfortable feeling when they come into contact with the skin. One great advantage of the bed bath wipes is that they can be heated for 15 seconds in the microwave (max 800W), which provides a pleasant experience and extra comfort during the bed bath. The wet wipes' ingredients are carefully selected, not least to avoid the development of allergies. A really good all-round wipe, which is ideal for bed baths and a comfortable and effective alternative to traditional washing with soap and water.

Shampoo cap, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Pcs per cll / cll per pll
491917	For dry wash, with conditioner, no colorant or perfume, 32 cm	21 × 16 × 4.5 cm, Ø32 cm	PET, viscose	5-6	30 / 60

ABENA's Shampoo Cap with conditioner is a perfect solution in situations when you don't have access to a traditional bath with water. The shampoo cap has been specifically developed for bedridden people, but can easily be taken with you, for example on a camping holiday or hiking trip.

The shampoo cap's shampoo and conditioner are mild and gentle on skin and hair. We recommend to heat the shampoo cap in the microwave before use - this provides extra comfort and a nice feeling that almost feels like having a real bath. Our shampoo cap is an easy and effective solution for people who appreciate the feeling of clean and freshly washed hair.

Wet Wash Gloves, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	
540055	No colorant or perfume, 5 pcs., 100 gsm	22 × 15 cm	Polyester, viscose	4-5	Half-fold	40 / 72 pk per cll / cll per pll
540051	No colorant or perfume, 8 pcs., 100 gsm	22 × 15 cm	Polyester, viscose	4-5	Half-fold	8 / 30 pcs per pk / pk per cll
540050	No colorant - with perfume, 5 pcs., 100 gsm	22 × 15 cm	Polyester, viscose	4-5	Half-fold	5 pcs per pk
540052	No colorant - with perfume, 8 pcs., 100 gsm	22 × 15 cm	Polyester, viscose	4-5	Half-fold	8 / 30 pcs per pk / pk per cll
1999914717	No colorant or perfume, 8 pcs., 80 gsm	23 × 15.5 cm	Polyester, viscose	4-5	Half-fold	8 / 30 pcs per pk / pk per cll

ABENA's Wet Wash Glove has a pleasant, cleansing and moisturizing effect, and is a very good alternative to the traditional bath with soap and water. The glove should be seen as a 4-in-1 cloth with a front and back. With your hand inside the glove, you have good control over both sides of the glove. When you have finished washing, the wash glove can be turned without having to touch the unclean side. The glove is incredibly soft and comfortable against the skin, but it is also made of a strong material that makes the wash glove impermeable to liquid, impurities, and bacteria. The wash glove is very hygienic. The product can be heated, which helps to make the washing experience more pleasant and comfortable.

Body Wash

Wash without Water

Perineal gloves, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	Pcs per pk / pk per cll
1000003181	No colorant or perfume, with 3% Dimethicone, 4 pcs., 100 gsm	22 x 15 cm	Polyester, viscose	4-4,5	Half-fold	4 / 40
1999914714	No colorant or perfume, 4 pcs., 80 gsm, with Dimethicone	23 x 15.5 cm	Polyester, viscose	4-4,5	Half-fold	4 / 30

ABENA's Perineal Glove, with a pH value of 4-4.5, is an ideal solution for daily washing and hygiene in intimate areas. The glove contains dimethicone, which moisturizes while at the same time forms a protective barrier to prevent the skin from drying out. The glove is also perfect for preventing Incontinence Associated Dermatitis (IAD). The glove acts as a multi-sided cloth. This means that you can use both the front and back of the glove when washing the body. While your hand is inside the glove, you have complete control over both the clean and unclean side, and your hand is protected. When you are finished washing, the wash glove can be turned to the back without having to touch the unclean side. The glove is soft and comfortable against the skin, and the strong material makes it less impervious and very hygienic. For a higher degree of well-being and comfort, it is recommended to heat the wash glove.

Wet Wash Gloves

**Effective and hygienic alternative
to soap and water**

- Prevents cross-contamination as each area of the body is washed with a separate glove
- Contains only the amount of soap needed not to leave product residue on the skin
- Effectively removes sweat and unpleasant odors
- Leaves skin feeling smooth, clean, and moisturized after use

Wash with Water

Soap and body wash for daily care

ABENA's blue range of traditional soaps for everyday use must all be rinsed off with water. The range is suitable for normal to dry skin, as it contains only mild ingredients. Most products in the range are labeled with the Nordic Swan Ecolabel and are certified by Asthma Allergy Nordic, as well as by The Vegan Society.

- Traditional soaps for daily care
- Contains only mild ingredients
- Most products are dermatologically tested and pH adjusted
- Products are easy to rinse off

Wash with Water

Liquid hand soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	
6661	No colorant with perfume	500 ml	4-5	500 / 6 ml per pcs / pcs per cll
6760	No colorant, with perfume	5000 ml	4-5	2 / 54 pcs per cll / cll per pll

ABENA's Liquid Soap is particularly suitable for frequent hand washing. Its nourishing and moisturizing properties, and a skin-friendly pH value guarantee clean and soft hands. The hand soap contains no colorants and has a light, mild scent. The soap is gentle on your skin, but effective against dirt and bacteria.

Mild Cream Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
7766	 No colorant or perfume	500 ml	4-5	6 / 144
1000002557	No colorant or perfume	600 ml	4-5	8 / 100
7767	No colorant or perfume	5000 ml	4-5	2 / 54

ABENA's Mild Cream Soap is the safe choice for daily hand washing. The soap has a creamy consistency and has been developed specially for frequent hand washing. The soap's pH value is adapted to that of your own skin, which means that your skin is not dehydrated by the soap, even when you wash your hands often. The mild formula, which does not contain any colorant or fragrance, nourishes and moisturizes the skin, and ensures clean, soft hands. It is the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Cream Soap is gentle on your skin, but effective against dirt and bacteria.

Foam Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / ccl per pll
150034	No colorant or perfume	500 ml	4-5	6 / 144
150693	No colorant or perfume	800 ml	4-5	6 / 84
150220	No colorant or perfume	5000 ml	4-5	2 / 54

ABENA's Foam Soap is the safe choice for daily hand washing. The soap is, as the name indicates, developed in foam form, which produces a light, airy texture and a soap that is also extra easy to apply. Our foam soap is perfect for frequent hand washing, since the pH value in the soap is adapted to your own skin's value. This means that your skin does not dry out, even when you wash your hands often. At the same time, the soap's formula has had balm added with glycerin content, which both nourishes and moisturizes your skin and leaves your hands clean and soft. The hand soap does not contain neither colorant nor fragrance and is therefore the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Cream Soap is gentle on your skin, but effective against bacteria and dirt.

6662	No colorant, with perfume	500 ml	4-5	6 / 144
6762	No colorant, with perfume	5000 ml	4-5	2 / 54

ABENA's Shower and Bathing Soap is a mild bathing soap that you can use to wash both your hair and body. The soap's pH value is adjusted so that it corresponds to your skin's own pH. In other words, it is a really good all-round soap, which is perfect for versatile, frequent use. The product contains no colorants and has a mild fragrance.

Body Wash

Wash with Water

Shower and Bathing Oil, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6663	No colorants, with perfume	500 ml	4-5	500 / 6

ABENA's Shower and Bathing Oil has fantastic washing properties and prevents delicate and sensitive skin from becoming dry and irritated. The composition of essential oils and specially selected ingredients ensures that plenty of moisture is provided and the skin is deeply nourished. The oil can also be used beneficially as a hair shampoo for people with a tendency to very dry scalps. We also recommend that people with deep skin folds use this oil as an alternative to soap.

Our Shower and Bathing Oil contains, among other things, castor oil which, combined with the other ingredients, gives the bath oil a unique 3-in-1 effect: it cleans, softens, and provides moisture. The oil can be used for both children and adults, as the pH value is perfectly adapted to the skin's own value. This also means that the oil actually helps strengthen the skin.

Hair Shampoo, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
1999906862	 No colorant or perfume	50 ml	5-5,5	24 / 232

6664	With perfume	500 ml	5-6	6 / 90
6764	With perfume	5000 ml	5-6	3 / 36

ABENA's Hair Shampoo is a mild, nourishing shampoo intended for all hair types. The shampoo leaves your hair clean and soft, and it is easy for you to rinse out, thus avoiding soap residue that could potentially irritate your scalp. The shampoo is economical in use and has a practical long-term effect. The product is third-party certified and can be used safely by the whole family. The shampoo is completely colorant-free and is available both with and without fragrance.

Conditioner, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
1999909578	No colorant or perfume	500 ml	4-4,5	12 / 98

ABENA's Conditioner is a mild, nourishing conditioner that is particularly suitable for all hair types. The hair is left soft and easy to comb out and, at the same time, the conditioner is easy to rinse out, so that no soap residue remains, which could potentially irritate the scalp. Our conditioner is both economical in use and has a long-lasting effect. We recommend using it together with ABENA's Hair Shampoo, which is mild and gentle on the hair and scalp. The product is third-party certified and can be used safely by the whole family.

ABENA Intimate Care is a specially developed soap for intimate wash care and for people with particularly sensitive skin who still want to use soap. The soap is extra mild and a safe choice where you want to avoid skin irritations, as it preserves the natural moisture balance in the intimate area. The product is easy to rinse off, and the pH value is adapted for the intimate area – and therefore the soap helps ensure the ideal intimate hygiene.

Gloves

The safe choice for every healthcare task

To avoid the spread of healthcare-associated infections (HAIs) and cross-contamination, gloves are an essential tool for all healthcare professionals. High-quality gloves are vital to ensuring a safe and hygienic environment for patients, staff, and visitors.

By choosing an ABENA glove, you gain access to more than 30 years of experience in the glove and healthcare industry. ABENA's strong sourcing setup and local presence ensure your supply security so that you can focus on keeping patients and caregivers safe.

Why you should choose gloves from ABENA:

- We perform thorough quality controls locally at our partner's production facilities
- We exceed quality and performance standards for user and patient safety
- We comply with all relevant and obligatory standards for medical and protective gloves
- Our product range includes all medically relevant gloves; Nitrile, Latex, and Vinyl
- We have more than 30 years of experience in the glove and healthcare industry

Nitrile Gloves

162

Premium protection and comfortable wear

Latex Gloves

174

Excellent touch sensitivity and grip

Vinyl Gloves

178

The economical alternative

Choose The Right Glove

Choosing the right glove for the right task is difficult but essential to preventing the spread of infections. Gloves intended for personal hygiene, medical, and health-care tasks have different requirements than those intended for cleaning or protection in the workplace. Some tasks require more dexterity or tactility, grip, barrier protection, and elasticity, while others require easy donning and high durability.

What to consider

Fit and comfort

Make sure you use a glove in the right size. Gloves should always have a snug, tight fit.

Physical and biological barriers

Especially in medical settings, it is important to be aware of both the biological and the molecular barriers of the glove to ensure that the glove offers the required protection for the task at hand. Check the biological barrier by examining the gloves for flaws and defects before use, and be aware that the molecular barrier can be broken by chemicals such as hand sanitizer allowing chemicals to pass through on a molecular level.

Durability and strength

Application and contextual needs are also important when choosing the right glove. When it comes to durability, strength, and tear resistance, nitrile and latex are more durable than vinyl. However, vinyl gloves are more economical than nitrile and latex gloves.

Grip and sensitivity

Gloves are available with various surface treatments such as smooth, finger-textured, and fully textured. In addition, different gloves are available in low, medium, or high grip. When performing tasks with small objects, such as medical instruments, or working in a wet environment, it is important to have a high grip and high sensitivity.

Quick Guide

Use the quick guide on the right to find out which glove is best for a given task.

- **Nitrile gloves** are good all-around medical gloves recommended for a wide range of uses, including chemotherapy, patient care, handling bodily fluids, and cleaning.
- **Latex gloves** are good healthcare gloves suitable for patient care, cleaning, food handling, etc., but not for chemotherapy (cytostatic) or hormone creams.
- **Vinyl gloves** are recommended for quick cleaning tasks and are suitable for some situations of patient care.

Application	Nitrile	Latex	Vinyl

Nitrile Gloves

Premium protection and comfortable wear

Nitrile gloves are good all-around medical gloves. They are recommended for a wide range of uses, including chemotherapy, patient care, handling bodily fluids, and cleaning. Nitrile gloves are a safe choice in situations with a high risk of infection or cross-contamination, as Nitrile is a strong material that still allows for fine tactile sensitivity.

- Suitable for performing tasks with small objects that require high sensitivity
- High durability and strength
- Offers excellent protection against viruses and bacteria
- Made from synthetic rubber (nitrile butadiene rubber)
- Do not contain natural rubber latex

Kills up to 99,999%* of selected bacteria. Flexible examination glove that adapts to the hand during use. Suitable for tasks such as cleaning, nursing, laboratory, medication handling, cytostatics and hormone creams. Contains no latex proteins and is thus safe for use in case of latex allergy. The glove is designed to kill microorganisms that come into contact with the exterior surface.

*Test report available upon request.

Latex Gloves

Excellent touch sensitivity and grip

Latex gloves are a good choice for medical and protective use. The gloves fit like a second skin and allow free movement of fingers with a high level of touch sensitivity and good grip. Latex gloves are particularly suited for patient care, also when cross-contamination is a concern.

- Made from natural rubber extracted from trees (*Hevea brasiliensis*)
- Excellent fit and flexibility in movement
- Offers great durability due to the highly elastic material
- Comes with and without powder

Vinyl Gloves

The economical alternative

Vinyl gloves are an economical alternative to latex and nitrile gloves. Smooth vinyl gloves are a good choice for personal hygiene tasks such as bed bathing and applying skin care because the smooth surface of a vinyl glove feels more gentle and comfortable on the skin. Vinyl gloves are also easy to don and doff while being comfortable to wear due to a high level of stretch and flexibility in the material.

- Well-suited for personal care and low-risk tasks
- Soft and comfortable to wear
- An economical alternative to nitrile and latex
- Available in a Phthalate-free version for enhanced user safety
- Latex and accelerator free

Wound Care

Creating optimal conditions for healing

ABENA has developed and manufactured wound care products for the healthcare industry since 2004. Our many years of experience, combined with our in-house healthcare specialists, is your assurance that we always deliver the best quality at reasonable prices.

As every person and wound is unique, the treatment plan for wound care should be too.

That is why we're ready to help you find the right combination of products for your needs.

Why you should choose wound care products from ABENA:

- We offer a wide range of reliable wound care products at competitive prices
- All products are developed in cooperation with in-house nurses
- Packaging is developed for hygienic and easy handling to minimize the risk of infections
- Products are suitable for use in all clinics, hospitals, nursing homes, and home care
- Products for sterile and non-sterile procedures

Absorption

For cleaning wounds and absorbing liquids

ABENA offers swabs for the absorption of liquids in both non-woven and gauze materials. All absorbing swabs offer a high absorption capacity that allows for the use of fewer swabs than is otherwise necessary. Our swabs do not contain optical whites or binders, and all products are available in multiple sizes to accommodate every need.

Non-woven swabs

- Soft and durable quality made from viscose and polyester
- Available with Y-cut for catheters and drains
- Available in 4 layers, high-quality

Gauze swabs and balls

- Gauze balls are fluff-free
- No threading for clinically effective cleaning
- Hypoallergenic — made from 100% cotton

Post-Op Dressing

Absorbent pads and post-op dressing

ABENA's range of post-op dressing is a cost-effective range of products that enable wound cleaning and absorption of exudate during wound dressing change. The range consists of absorbent pads, film dressing, and post-op dressing. All products are available in multiple sizes.

Absorbent pads

- Absorbs 8–10 times their own weight
- Non-woven, water-repellent back sheet lets skin breathe
- Available in sterile and non-sterile versions
- Combine with tubular or fixation bandages to keep pads in place

Post-op dressing — sterile

- All products are sterile and suited for post-operative use
- Highly absorbent and low-adherent pads
- Single-packed in peel-off pouches
- Available in a waterproof and film version

Wound Care

Post-op dressing

Absorbent pads, ABENA

Item number	Ingredients / Composition	Dimensions	Features	Color	Pcs per pk / pk per cll
220886	PP, viscose, PE, fluff, cellulose	10 × 10 cm	Non-sterile, with blue backing	White	50 / 24

220890	PP, viscose, PE, fluff, cellulose	20 × 40 cm	Non-sterile, with blue backing	White	30 / 2

ABENA Absorbent Bandages combine a soft contact surface with high absorption capacity for absorption of wound fluids. The product consists of a soft non-woven side against the skin, a high absorbency fluff core, and a liquid-repellent, breathable blue backing. Used as absorbent secondary dressing in moderate to severely exuding wounds. Must be fixed, cannot be cut in.

Absorbent pads, ABENA

Item number	Ingredients / Composition	Dimensions	Features	Color	Pcs per pk / pk per cll
220923	PP, viscose, PE, fluff, cellulose	10 × 10 cm	Sterile, with blue backing	White	50 / 12

220936	PUR, polyester, acrylic adhesive	10 × 25 cm	Semipermeable, bacterial and virus-proof, liquid-proof, sterile	White	40 / 16
220919	PUR, polyester, acrylic adhesive	10 × 30 cm	Semipermeable, bacterial and virus-proof, liquid-proof, sterile	White	40 / 8

ABENA Film dressing with wound pad is a soft and comfortable thin sterile semipermeable polyurethane film for wounds with low secretion. The film layer causes fluid from the wound to evaporate therefore reducing the risk of maceration during wound dressing. The bandage is bacterial and virus-proof and is also showerproof. The wound pad absorbs any fluid and prevents the bandage from sticking. The adhesive is skin-friendly and leaves no adhesive residues.

Wound Care

Post-op dressing

Post-OP dressing, ABENA

Item number	Ingredients / Composition	Dimensions	Color	Pcs per pk / pk per cll
221430	Polypropylene, polyester, acrylic adhesive	6 x 7 cm	White	100 / 16
221431	Polypropylene, polyester, acrylic adhesive	8 x 10 cm	White	70 / 16
221432	Polypropylene, polyester, acrylic adhesive	10 x 15 cm	White	40 / 16

221434	Polypropylene, polyester, acrylic adhesive	10 x 25 cm	White	40 / 16

ABENA Post-OP dressing is made with a soft nonwoven backing with a skin-friendly acrylic adhesive. The soft polyester wound pad is absorbent and does not adhere to the wound. The bandage is soft and shapes itself according to the body's contours. The nonwoven backing allows the skin to breathe through the dressing. Used as a primary dressing for dry to slightly exuding wounds, such as cuts, scrapes and scab protection over sutured wounds.

221467	Polypropylene, polyurethane, polyester, acrylic adhesive	10 x 35 cm	Semipermeable, bacterial and virus-proof, liquid-proof, sterile	White	40 / 8

ABENA waterproof Post-OP dressing is a soft and comfortable sterile dressing for wounds with low secretion as well as for sutured wounds. The upper layer is made of nonwoven material with a semi-permeable polyurethane film. The upper layer causes fluid from the wound to evaporate thereby reducing the risk of maceration during wound dressing. The wound pad absorbs any excess fluid and prevents the bandage from sticking. The adhesive is skin-friendly and leaves no adhesive residues. The bandage is bacterial and virus-proof and is also showerproof. Used as a primary dressing for dry to slightly exuding wounds, such as cuts, scrapes and scab protection over sutured wounds.

IV fixing, ABENA

Item number	Ingredients / Composition	Dimensions	Features	Color	Pcs per pk / pk per cll
221435	Nonwoven, acrylic adhesive, polyester	6 x 8 cm	Sterile, latex-free	White	100 / 16

ABENA IV dressing is a soft and comfortable dressing. The upper layer is a soft and comfortable nonwoven material. The soft pad on the bandage absorbs excess fluid from the puncture site and prevents the bandage from adhering to the needle. The adhesive is very skin-friendly and does not leave any residue. The bandage is provided with a slit and is easy to apply. Latex free, individually packed and sterile.

Fixation

Support and fixation of primary bandages

ABENA's range of support and fixation bandages offers a hygienic and reliable way to fix dressings and probes. The range consists of tapes, film dressings, and different types of bandages, including tubular bandages.

Fixation

- Use for fixation of primary bandages or as a protective layer
- Ideal for securing catheters and drainage tubes
- Pain-free removal that does not leave a trace of adhesive on the patient's skin

Fixation Bandages

- Ideal for venous insufficiency and for keeping foam bandages in place
- Can also be used as a support bandage for muscles and sports injuries
- Comes in various materials

ABENA Tubular Compression Bandage is used for fixation and compression treatment. Can also be used as a support bandage over joints and muscles.

Labels and Certificates

The **Dermatologically Tested** symbol guarantees that products have been tested for ingredients which can potentially cause skin irritation. Tests are conducted by an independent third-party laboratory.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

The **EU Ecolabel**, also known as the EU Flower, is the official environmental label in Europe. Products with the EU Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Asthma Allergy Nordic is a proof of the product being recommended by the experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy development.

Products with the **Vegan Society** certificate do not contain animal substances and are not tested on animals.
